

## AMENDMENTS TO THE SPECIFICATION

*Please amend the paragraph from lines 10-16 in page 5 of the specification as follows:*

The machine-readable medium may include a mechanism that provides (i.e., stores and/or transmits) information in a form readable by a machine such as computer or digital processing device. For example, a machine-readable storage medium may include a read only memory (ROM), random access memory (RAM), magnetic disk storage media, optical storage media, flash memory devices. ~~The~~ For example, the code or instructions can be represented by machine readable communication medium such as carrier wave signals, infrared signals, digital signals, and by other like signals.
